One-Pager Project

Show what you learned on one sheet: your best quotes or facts, an image, and your own thinking.

Name _____ Class _____ Date due _____

Your topic

_____

Put all of these on your one-pager

1. The title and author, or the topic
2. Two quotes, or two key facts for science and math, with where each comes from
3. One symbol or image for the main idea
4. The theme or main idea in one sentence
5. Two or three sentences of analysis
6. A connection to your life, another text or current events
7. A border or color scheme that means something
8. The whole page used

How it will be graded

Area	4 (Excellent)	3 (Good)	2 (Developing)	1 (Beginning)
Required elements	Every required element is on the page and easy to find.	All but one required element is on the page.	Two or three required elements are missing.	Most required elements are missing.
Quotes or facts	Two well-chosen quotes or facts, each with its source.	Two quotes or facts; one source is missing or one choice is weak.	One quote or fact, or quotes with no sources.	No quotes or facts, or they do not fit the topic.
Analysis	Explains why each quote, fact or symbol matters, in the student's own words.	Explains most choices, with a few general statements.	Mostly summary, with little explanation.	No analysis, or it repeats the text.
Symbols and images	Every image or symbol connects to an idea, and the link is explained.	Images connect to ideas, but one link is unclear.	Images are decoration with weak links to the ideas.	No images or symbols.
Organization	Spaces are planned, readable and in a clear order.	Mostly clear, with one crowded or confusing area.	Hard to follow in several places.	No clear order; hard to read.
Use of the page	The whole page is used, including a border with meaning.	Most of the page is used; the border is plain.	Large empty areas.	Much of the page is blank.
